# EverWood® Interior Finish

**INFINITY**

from **MARVIN**

REPLACEMENT WINDOWS

*Built for life®*

# Everything you love about wood windows — without the maintenance.

## Purposefully engineered finish

EverWood®, our breakthrough interior finish, offers natural wood grain looks and texture — with the durability you expect. It looks, feels, paints, and stains like wood, without the maintenance.

## Designed to perform

Long-lasting EverWood is made from an engineered inorganic material, so it won't absorb moisture or decay over time. That means there's virtually no warping, discoloration, material degradation, expansion, or contraction — just remarkably reliable performance and lasting beauty, year after year.

## Stained to match

EverWood can be custom stained to match your existing woodwork or take your home in a new design direction.
